THEORETICAL AND APPLIED GENETICS

Founded in 1929 under the title 'Der Züchter' as a German journal for theoretical and applied genetics and edited until 1945 by Erwin Baur; changed from a national journal devoted almost exclusively to plant breeding to an international periodical for genetics and breeding research under the same title 'Der Züchter' in 1966; in 1968 to 'Theoretical and Applied Genetics'; edited by H. Stubbe from 1946 to 1976.

The exclusive copyright for all languages and countries, including the right for photomechanical and any other reproduction, also in microform, is transferred to the publisher.

The use of registered names, trademarks, etc. in this publication does not imply, even in the absence of a specific statement, that such names are exempt from the relevant protective laws and regulations and therefore free for general use.

Springer Journals keeping you in pace with science.

Springer journals are known and respected internationally for keeping professionals in science and in medicine, in research and in industry well-informed about the rapid progress in their fields. Decide for yourself by sending in one of the order coupons.

To: **The Head Librarian/The Library Committee**

From: _____

Department: _____

☐ I/we have studied the Springer Journal(s)

_____

☐ and recommend that the journal(s) be purchased for the Main/Department Library

☐ I/we would like to see the Springer Journals Catalog with information on subscriptions/back volumes/microform

☐ Please obtain sample copies on other related Springer Journals and/or latest index/sample copy including volume-index

_____

SUBSCRIPTION ORDER FORM

SPRINGER-VERLAG BERLIN HEIDELBERG NEW YORK

Please order through your bookseller:
or Springer-Verlag, P.O. Box 105280, D-6900 Heidelberg,
All countries (except North America)
or (North America) Springer-Verlag New York Inc.,
175 Fifth Avenue, New York, NY 10010, USA
North America subscriptions are entered with prepayment only.

☐ Please enter my/our subscription to (please give title or ISSN)

_____

Full subscription information is given on inside front or back cover page

Official Organ of the Deutsche Botanische Gesellschaft and the Zoologische Gesellschaft

Editors: H. Bauer, E. Bünning, K.v. Frisch, L. Jaenicke

Managing Editors: G. Czihak, R. Lehmann, G. Schoser, E. Schwartz, J. Schwoerbel, L. Träger, M. Wiedemann, I. Ziegler

Language: approx. 60% English, 40% German

Departments: General, natural philosophy and theoretical biology; methodology; metabolic analysis and biochemistry; immunology; virology; microbiology; cytology; genetics and evolution; plant morphology and systematics; animal morphology; animal systematics; plant physiology; animal physiology; reproduction and sexuality; developmental physiology and growth; biogeography; applied botany; medical biology.

Abstract Journals keep you up-to-date about recent publications in your specialty.

Scientists ● SELECT ● CRITICALLY SCAN and ● PRECISELY ABSTRACT journals, handbooks, monographs and symposia proceedings.

Index System
An index is published upon completion of each volume. The contents of each paper are analyzed in such a way as to insure easy access to the individual abstracts by using any of the key terms. The index lists each term in proper context (word chains).

Microform
Both „Zentralblatt" and „Berichte" abstract journals are available as additional subscriptions at a 75% discount on microfiche (the production of parallel editions is dependent on sufficient demand).

THEORETICAL AND APPLIED GENETICS

International Journal of Breeding Research and Cell Genetics

Editorial Board

	Addresses of Editors	Fields of Competence
H. Abplanalp	College of Agricultural and Environmental Sciences, Agricultural Experiment Station, Department of Avian Sciences, University of California, Davis, California 95616 (USA)	Animal breeding (poultry, laboratory species), quantitative genetics
L. Alföldi	Magyar Tudományos Akadémia, Szegedi Biológiai Központ, Genetikai Intézete, Szeged, Pf. 521 (Hungary)	Somatic cell genetics, microbial genetics
R. W. Allard	Department of Genetics, University of California, Davis, California 95616 (USA)	Population genetics, plant genetics
J. S. F. Barker	Department of Animal Science, The University of New England, Armidale, N.S.W. 2351 (Australia)	Animal breeding, experimental quantitative genetics (animals), population genetics
D. K. Belyaev	Institute of Cytology and Genetics, Academy of Sciences of the USSR, Siberian Department, 630090 Novosibirsk 90, Prospekt Kauki, 19 (USSR)	Animal genetics and breeding, evolution genetics
Y. Y. Gleba	Institute of Botany, Academy of Sciences Ukr. S.S.R., Repina 2, Kiev, 252601 (USSR)	Plant cell genetics, somatic cell hybridization, plant cell and protoplast culture
Å. Gustafsson	Genetiska Institutionen, Lunds Universitet, Sölvegatan 29, S 22362 Lund (Sweden)	Crop plant research, apomixis, polyploidy, mutation in phanerogams
R. Hagemann	Wissenschaftsbereich Genetik, Sektion Biowissenschaften, Martin-Luther-Universität, Domplatz 1, DDR-402 Halle/S. (German Democratic Republic)	Plasmatic and plastid inheritance, male sterility, genetic instability, paramutations, tomato genetics
Hu Han	Institute of Genetics, Academica Sinica, Peking (China)	Haploids in plant breeding
R. C. Lewontin	Museum of Comparative Zoology, The Agassiz Museum, Harvard University, Cambridge, Massachusetts 02138 (USA)	Population genetics, genetic variation in natural populations
W. J. Libby	School of Forestry and Conservation Agricultural Experiment Station, University of California, Berkeley, Calif. 94720 (USA)	Forest genetics, genetic mechanisms of juvenility or aging, quantitative genetics
H. F. Linskens (Managing Editor)	Editorial Office: c/o Department of Botany, University, Toernooiveld, 6525 ED – Nijmegen (the Netherlands)	Biochemical genetics, incompatibility, incongruity
J. Mac Key	Department of Genetics and Plant Breeding, Royal Agricultural College of Sweden, Box 7034, S 75007 Uppsala 7 (Sweden)	Autogamous plant breeding, taxonomy of crop plants, yield structure, disease resistance
P. Maliga	Institute of Plant Physiology, Biological Research Center, Hungarian Academy of Sciences, P. O. Box 521, H-6701 Szeged (Hungary)	Plant cell genetics
F. Mechelke	Institut für Genetik, Universität Hohenheim, P.O.Box 106, D-7000 Stuttgart 70 (Federal Republic of Germany)	Structure, function and evolution of chromosomes
G. Melchers	Max-Planck-Institut für Biologie, Corrensstr. 45, D-7400 Tübingen (Federal Republic of Germany)	Combination of cell and conventional genetics
B. R. Murty	Nuclear Research Laboratory, Indian Agricultural Research Institute, New Delhi – 110012 (India)	Biometrical radiation and population genetics, plant breeding
O. E. Nelson	Laboratory of Genetics, B 12–14 Genetics Building, University of Wisconsin, Madison, Wisconsin 53706 (USA)	Physiological genetics of higher plants, genetic fine structure
P. L. Pfahler	Agronomy Department, Institute of Food and Agricultural Sciences, University of Florida, Gainsville, Florida 32611 (USA)	Genetics and breeding of maize, rye and oats
R. Riley, F.R.S.	Agricultural Research Council, 160 Great Portland Street, London WIN 6 DT (Great Britain)	Cytogenetics especially of plants, its application to crop breeding, crop plant evolution, temperate plant breeding
A. Robertson, F.R.S.	Institute of Animal Genetics, University of Edinburgh, West Mains Road, Edinburgh EH9 3JN (Great Britain)	Animal breeding, quantitative, theoretical and experimental population genetics
H. Skjervold	Institute of Animal Genetics and Breeding, The Agricultural College of Norway, Box 18, Vollebekk (Norway)	Animal population genetics
P. Spiegel-Roy	Agricultural Research Organization, Volcani Centre, P.O.B.6, Bet Dagan (Israel)	Mutation breeding, fruit tree breeding, tissue culture
H. Stubbe	Zentralinstitut für Genetik und Kulturpflanzenforschung der Akademie der Wissenschaften der DDR, DDR-4325 Gatersleben, Kr. Aschersleben (German Democratic Republic)	Plant genetics and breeding
K. Tsunewaki	Laboratory of Genetics, Faculty of Agriculture Kyoto University, Kyoto (Japan)	Plant genetics (especially of wheat), cytogenetics, cytoplasma inheritance
L. D. Van Vleck	New York State College of Agriculture at Cornell University, Department of Animal Science, Frank B. Morrison Hall, Ithaca, N. Y. 14853 (USA)	Quantitative genetics especially as applied to animals
G. Wenzel	Max-Planck-Institut für Züchtungsforschung, D-5000 Köln 30 (Federal Republic of Germany)	Cell genetics and haploids in plant breeding
D. von Wettstein	Carlsberg Laboratory, Department of Physiology, Gl. Carlsbergvej 10, DK-2500 Copenhagen Valby (Denmark)	Cell organelles, radiation and chemical mutagenesis, developmental and biochemical genetics, breeding of barley, yeast and forest trees, breeding for protein quality
